## All-American Athletic Lockers

## Have Set the Standard for Quality

There's an All-American Locker to meet every need... full length, double tier and gym lockers... all completely ventilated... in a choice of 7 baked enamel finishes (or custom finished)... available for uniform installation or in combination.

The original All-American Locker was a custom locker... built to particular specifications for a particular installation. They were ordered because lockers of the size, quality and serviceability were not available in standard locker packages.

Since that time the line has been adapted, expanded, altered and refined... but the *Quality features of design, materials and construction have never been compromised.*

Today the All-American Locker is the leader in the quality field... providing maximum ventilation, light, roominess and cleanliness... exactly built of heavy duty materials to assure long life service.

The All-American Line has been copied, imitated, adapted and appropriated *but it has never been equalled.* Ask the coaches and players who demand the best... and have All-American!

Send for our complete line catalog and complete information.
